LABOR: Labor between the nours of 8:00am and 5:00pm, Monday through Friday will be at the straight time labor rate. Labor before 8:00am and after 5:00pm, Monday through Friday, weekends and holidays will be at the overtime rate.

NOTE: All outlets will be installed at the rear of the booth, unless otherwise specified on your floor plan. All connections more than 10' apart will require a new outlet. All outlets

NOTE: All outlets will be installed at the fear of the booth, unless otherwise specified on your floor plan. All connections more than 10 apart will require a new outlet. All outlets include 50' of line from the closest available outlet, anything after 50' will incur additional footage charges of \$3.50 per foot. Size of airline installed will be determined by exhibitors CFM requirements. Compressed air is available during move in and shows hours only. During move out, compressed air will be disconnected on hour after show close. Exhibitors needing air beyond this hour are subject to overtime charges. CTS will not be responsible for moisture or water in airlines. Exhibitors should supply their own filters. All under carpet, overhead distribution and ramping will be done on a time and material basis. In order for CTS to make a connection the connection point must have standard pipe thread. 1-hour minimum labor charge for both installation and dismantle (total 2 hours) per service. CTS is not responsible for any debris, sediment or discoloration of water.
