Air and Water Overview and Key Points – New for 2019

Determine how many pieces of equipment will need to be connected to either Air, Water, Drain, or Natural Gas.

Pricing Includes: (a) Initial (1st) Floor or Overhead service outlet, (b) 100 feet of 1/4 inch to 1 inch standard hose (Air, Water, Drain, and Gas), (c) Scissor or condor lift to bring in service from overhead, (d) labor for initial location as determined by floor plan submitted, and (e) needed CFM's. Air and Water are set up for **two secondary services** within 15 feet of original service. Floor option only. Further than 15 feet away, or more than two additional locations, you must order another primary drop.

All services ordered need to order a connection which includes CFM's, labor to connect/remove all fittings and misc. material for standard connections using nominal AM. Std. fittings for air, water, drain and natural gas. **We do not supply Metric fittings for connections.** All connections from service to equipment will be performed by PACK EXPO Services (PES) personnel only.

Inline booths and Peninsula booths will have service brought to center back at curtain line if no floor plan is submitted with order. If size is not submitted with order, we will provide a minimum size of 1/4" nominal.

Island booths requesting service need to submit a detailed floor plan with order showing where services need to be installed. Without a floor plan, services could be delayed and additional costs incurred.

After initial services are installed, any changes to installation will be on a new labor ticket and materials order.

Overhead services are available in all halls.

PES is not responsible for moisture, oil, water, drop or increase in pressure in lines to equipment.

Exhibitors should provide their own filters, dryers or other equipment as needed.

No compressors are allowed on the show floor other than those supplied by PES.

1/4" Line = 1 - 25 CFM

3/4" Line = 71 - 115 CFM

1/2" Line = 26 - 70 CFM

1" Line = 115 - over CFM

You must specify line size and CFM used per outlet when placing your order.

Minimum line size for water, natural gas, and/or drain service is 1/2" nominal.

All air services shut down one (1) hour after show close.

PES is not responsible for discoloration, taste, sediment or drop in water pressure.

Pricing Excludes: Ramping which is time and material cost, any applicable fees or taxes, any above and beyond the normal requests for hardware, specific brand products, pressure regulator valve installations, and/or major equipment/machinery retro fitting and assembly. Any and all work requested to be done on OT or DT Schedules or any floor or booth work scheduled outside of the outlet service scope of work. This will be done at the published hourly labor rates and thus noted on change order or supplemental work tickets which will be signed by the exhibitor(s) as the work is performed and completed. Requests placed at show-site for overhead services will incur condor labor charges.

There is a late fee of \$500.00 for any floorplan received after Sept. 6, 2019.

Refer to the union jurisdictions and exhibitor rights forms for more information.
