

⇒ As the official Service Contractor, The Expo Group is exclusive service provider for freight services. **Material Handling** is the unloading of your materials, up to 30 days of advance storage at the advance warehouse address, delivery to your booth, handling of empty containers to and from storage, and removal of your materials from your booth for reloading onto your outbound carrier. There are two options for shipping your advance freight - either to the advance warehouse or directly to the show site. It should not be confused with Shipping which is the cost to transport your exhibit material to and from the convention or event. **It is not necessary to return this form to receive Material Handling services. Material Handling charges will be automatically applied to your account upon receipt of each shipment.**
