

1 Advance Planning

1. Rigging crews with forklifts or cranes should be ordered in advance to uncrate, unskid, position and reskid heavy machinery.
2. Millwrights should be ordered in advance to assemble machinery, conveyors and machinery parts, as well as for the leveling of machinery and conveyors.
3. **Crews do not need to be ordered to unload and reload inbound and outbound freight carriers.**
4. **Crews should not be requested for installation until your heavy equipment has been unloaded. For example: If your equipment is scheduled to be unloaded between 7:00 am and 12:30 pm on your assigned target date, you should not approximate your need for a rigging crew prior to 12:30 pm on that day.**
5. You must provide any special rigging equipment that may be needed to pick, uncrate or assemble your machinery, i.e. special picking bars, rolled steel shafts, special length slings, tested chains, etc. Make sure this equipment is on the back-end of the first truck to be unloaded.
6. Plan the layout of your machinery before you come to the show.

2 Machinery Skids Removal

1. Rigging crews will remove and return machinery crates and skids as part of fulfilling rigging labor orders placed by exhibitors.
2. **IF MACHINERY SKIDS ARE NOT READY TO BE REMOVED AT THE TIME ASSEMBLY IS FINISHED, YOU MUST RETURN TO THE SERVICE DESK AND PLACE AN ORDER FOR MACHINERY SKIDS TO BE REMOVED AT THE EXHIBITOR'S EXPENSE.**

3 On-Site Execution

1. Rigging crews and millwrights ordered in advance for installation and dismantling of heavy machinery **MUST** be reconfirmed upon arrival to the exhibit hall at a PES Service Center.
2. Union laborers are ordered by PACK EXPO Services prior to 2:30 pm daily for the next day. Therefore, you must place your order, or reconfirm your existing order at a PES Service Center prior to 2:00 pm of the day proceeding your need for a labor request.
3. You must provide any special tools, i.e. sock and allyn wrenches, metric tools, etc. Riggers only carry a twelve-inch crescent wrench, knife and ruler.
4. Union laborers work according to the following schedule:
 - If you order crews for 8:00 am, they should be in your booth by 8:10 am.
 - Fifteen minute breaks at 9:30 am and 2:30 pm.
 - Thirty minute lunch break from 12:00 noon to 12:30 pm.
 - Return labor by 4:15 pm daily to avoid overtime charges, and allow time for wash-up.
