Electrical FAQs

From under carpet wiring to overhead lighting, PACK EXPO Services (PES) has the power to simplify your electrical needs and installation. We've answered your most common questions below to help you place your order or prepare for a detailed discussion. Whether you require basic power or a more technical installation for equipment, audio visual presentations or truss lights, our electrical specialists and qualified electricians are always available to assist you.

1. How do I know how much power I need? First, review a layout of your exhibit, noting all of the items in it that require power. Consider lighting, computer equipment, and your own product. Are you bringing or renting any a/v equipment or ordering catering services that might need power? Will you be using a lead retrieval machine? If it's an item that plugs into a standard wall outlet found in a home or office (in North America), it will require 110/120 volt power. 208 or 480 volt power is generally used for machinery or industrial cooking devices and is ordered by single or 3 phase.

Next, mark the voltage and wattage or amperage (referred to as "load") (100 watts = 1 amp) of each piece of equipment at its location in the booth. This information should be provided on a name plate or stamp usually located on the back or bottom of the equipment. If not indicated, check our accompanying electrical usage guide for estimated wattages for common items used at trade shows or call your rental company/caterer for specifics. For lighting, loads are dictated by the wattage of the bulbs. Arm lights included with exhibit packages use 200 watt bulbs. Keep in mind that you need to order power for any lighting within your booth unless the lights are ordered directly from the Electrical Department (those listed on the electrical order form).

Finally, total the wattage for the 120 volt devices in each area and select an outlet that meets or exceeds that total. Separate outlets should be ordered for each piece of equipment and/or each power location to help minimize tripping/power outages. It is always safer to slightly overestimate your power requirements. Wattage or amperages cannot be combined for 208 or 480 volt apparatus. Please order separate outlets for each.

2. Do I need to order labor? As the official service contractor, electrical installations must be performed by PACK EXPO Services union labor. Labor is required for any electrical work over and above the delivery of outlets to the back wall of inline booths. Labor orders will automatically be input upon receipt of an electrical layout for under carpet installation (floor work) or to connect any 208 volt or higher services (hook up). Dismantle labor for electrical services is calculated at 50% of the installation time since much of the work is performed on a mass basis after booths are removed from the exhibit hall. Please see the electrical labor order form for further details, rules and regulations.

3. What is an electrical layout and why do I need one? Like your own home, electrical boxes and wiring should not be visible once the exhibit is completed. At show site, they are the first things to be installed so that they can be hidden by drape, walls or counters and under flooring or carpet. Electricians, therefore, work on a blank slate. A good electrical layout or floor plan provides them with a simple overhead view of your booth indicating the locations and load of each electrical outlet and the orientation of your booth within the show itself. The layout should be to scale and provide specific measurements to each outlet along with surrounding aisle or booth numbers to ensure accuracy. For island booths, a main power location must also be indicated as it is the location from which other outlets are fed. Please see the sample layouts and electrical grid for further information.

When a layout and credit card are provided in advance, PES makes every effort to ensure that the floor work is completed before you arrive so that there is no delay in assembling your booth. Once carpet is laid, installing or changing electrical services becomes much more difficult and potentially costly.

Please note that layouts, complete with mandatory information, are required prior to the deadline date for electrical orders to be eligible for advance rates. Layouts are not required if all outlets are located at the back wall in inline booths.

4. Is the price for power per day? Outlet or connection prices are typically for an entire show.

Electrical FAQs (cont.)

5. What is 24-hour power? Many facilities these days are energy conscious and therefore turn off power overnight. Power is turned off one (1) hour after the show closes at the earliest and restored no later than one (1) hour before the show opens the following day. 24-hour power is, as it sounds, power that is continuously on 24-hours per day, starting the night the show opens. EXTENDED POWER IS AVAILABLE FOR BOTH SET UP AND DISMANTLE DAYS. INQUIRE AT SERVICE DESK FOR RATES.

If your booth includes, for example, refrigeration equipment, an aquarium or programmable apparatus that depends on uninterrupted power, you should consider ordering 24-hour service.

6. Where does the power come from? Depending on the facility, the power can come from overhead catwalks, floor ports, columns, wall outlets or a combination of these sources. Check with your CAM for more information.

7. What if I need power at another location besides the rear of my booth? What if I have multiple power locations? Exhibitors requiring power at any location other than a back wall must submit an electrical layout. Please see the sample layouts and electrical grid for further information.

8. How many places will I have to plug in? How many things can I plug in? For planning purposes, you should always assume that there is only one connection point per outlet ordered. Power strips can provide additional sockets but do not confuse having more places to plug in with additional power. For example, an order is placed for a 500 watt outlet. A track light with 4–100 watt bulbs is plugged in to a power strip connected to the outlet, using 400 of the 500 watts. Any lighting or equipment now plugged in to a second socket may not exceed 100 watts.

Also keep in mind that power strips are designed, for safety purposes, to trip at 1500 watts or 15 amps. Using a power strip with a 2000 watt (20 amp) outlet will reduce it to a 1500 watt outlet.

All orders exceeding 120 volt/20 amps provide one connection point only, cannot accommodate power strips and require labor for installation.

9. Can I bring my own extension cords and power strips? (Also known as plug strips, multi strips, etc.) Exhibitors may use their own extension cords and power strips under the following conditions:

- The equipment must be 3 wire, 14 gauge minimum with a ground.
- The extension cords must be flat if they are to be laid under carpet. (Labor is required to lay the cords.)
- All power strips must have circuit protection.
- Extension cords must be rated for 'extra hard usage' per Las Vegas code.

10. Can I run my extension cords under the carpet myself? For safety reasons, exhibitors are not allowed to run any electrical wiring under any type of floor covering or where they may be concealed in the booth structure. The show's electrical contractor is liable for electrical installations and therefore must perform all floor or booth work.

11. Can I bring over carpet wire cover(s) and run my own cords over carpet? Running any electrical cords **over** carpet is prohibited. This includes with the use of over carpet Wire Covers like the below example. Floor work must be done by PES Electricians.

Electrical FAQs (cont.)

12. Will my floor work be completed before I arrive? Every attempt is made to have floor work completed prior to carpet installation if you have submitted the following:

- A completed electrical order form.
- A valid and authorized credit card to be kept on file for the company.
- An electrical layout indicating the main power location, dimensions to each power location, the power required at each location, and surrounding aisle or booth numbers to determine orientation of the booth.

13. Do I need to order electrical labor for a monitor(s) installation? If an exhibitor owns the monitor(s), they are allowed to install it themselves. No other trades can assist (such as carpenters installing the brackets). All rentals must be installed by electricians. Order electrical labor for monitor wall-mounts. Complete the Electrical Labor forms in this section, and select AV Installation.

14. When will my power be turned on? Power is only guaranteed to be installed before the show opens. Any special requests such as temporary chain motor power, programming machinery or testing equipment should be noted on your order.

15. Do I need lighting? Lighting can dramatically change the impact of an exhibit, no matter the size. Used effectively, lighting can emphasize specific areas of a booth or highlight products. Also, an exhibit will appear dark and uninviting if the surrounding booths are lit and yours is not.

16. Can I hang my own lights? Yes, an exhibitor can hang their own lights and plug them in without ordering labor. Typically exhibitors themselves can hang up to four (4) lights as long as they require no more than 20 amps in total. If a decorating company has been contracted to install a display, electrical labor is required to install the lights. No other trades can assist.

17. Do I need to order power for my lighting? Exhibitors ordering Electrical Services lighting (those listed on the electrical order form) do not need to order power. It is included in the rental. Exhibitors supplying their own lighting need to order power.

18. Do I need to order labor to plug in my lights or equipment? Most 120 volt connections do not require labor. Exhibitors are welcome to plug in their own standard office devices. Labor is required for all 208 or 480 volt connections and if lights or equipment need wiring or if electrical cords are to be run under the carpet or in concealed areas to ensure that all electrical codes and building rules are met.

19. How can I save money and frustration when ordering electrical services? Most importantly, be sure to submit your order before the discount price deadline date. If an electrical layout is needed, it also must be received, complete with mandatory information, before the deadline date to be eligible for discount pricing. Late orders can be subject up to a 50% increase in cost because of the behind-the-scenes planning required to distribute power.

Don't underestimate your power requirements and work within the local rules, regulations and union jurisdictions. They have been implemented to avoid problems. While it may seem simple to plug in lights and equipment, it is not uncommon for exhibit or non electrical staff to overload circuits. Trouble calls can become expensive when it takes time to find the source of a problem.

If you require carryover electrical labor, you must confirm at the electrical desk that you wish to use labor again the following day. Carryover requests should be confirmed by 1:30 pm each day.

If unsure about labor, call us for direction and if necessary, place a "will call" order before the discount price deadline date. You will only incur a charge if labor is dispatched to your booth but you'll have secured the advance pricing. And, check in with the electrical or service desk as soon as you know you need labor, not at the time you want the electricians in your booth. It will help to avoid delays as we can schedule accordingly.

Try to resolve any disputes at show site. It is much easier to discuss electrical issues when both parties can physically review the installation.

Please refer to the Exhibitor Rights and Labor section for more information.

ELECTRICAL INSTRUCTIONS

HOW TO DETERMINE ELECTRICAL REQUIREMENTS

For Equipment

All electrical equipment is stamped or labeled with electrical ratings usually found on the back or bottom of the equipment. Verify voltage and either amperage or wattage from the information provided. Standard office and household items operate on 110/120 volt power. Machinery and equipment typically require 208 or 480 volt power.

For Lighting

Verify the wattage of the bulbs in the lights and multiply by the number of bulbs/lights. **LOCATION OF POWER IN YOUR BOOTH** In-Line and Peninsula Booths Power will be installed in one location, typically on the floor somewhere along the back of the booth, as indicated in the following diagrams: (We cannot guarantee that the outlet will be specifically located in the middle.) Labor rates are based on current wage scales and are subject to change in the event of a wage increase after rates have

IN-LINE BOOTHS / PENINSULA

BACK TO BACK PENINSULA

If power is required in locations other than indicated above, secondary distribution will be required and billed on a time and material basis. Please complete and submit an Electrical Labor Order Form with your power order, along with a floor plan as described below.

Island Booths/Multiple Outlets

Floor plans are always required for Island Booths and orders for multiple outlet locations. The floor plan must indicate booth dimensions, surrounding booth numbers for orientation within the facility, each outlet location, required wattage or amperage and location for main drop. If power location in an island booth is not provided prior to show move-in, a location will be determined by Freeman in order to maintain delivery schedules. Relocation of the service will be charged on a time and material basis. See examples below: A grid is available at cyberservices.com to print as a base layout.

Labor Required

OTHER:

1. Labor is required for any and all electrical work over and above the installation of the main power drop. Please see the Electrical Labor form for complete details. **Please complete the labor order form.**
2. Dismantle labor will be automatically charged at 35% of the installation time and rounded to the next half hour.
3. All material and equipment provided by PES is for rental purposes only and remains the property of PES. All equipment will be removed at the close of the show by PES.
4. All equipment regardless of power source, must comply with Federal, State and local codes as well as any applicable local recognized electrical authorities and standards. PES reserves the right to inspect all electrical devices and connections to ensure compliance with all codes and proper permitting. PES is required to refuse connections where the exhibitor wiring is not in accordance with local electrical code and permitting.
5. Standard wall and other permanent building utility outlets or sockets are not part of booth space and may not be used by exhibitors unless electrical services have been ordered.
6. Exhibitors' cords must be a minimum of 14 gauge 3 wire with ground and must be flat when used for floorwork. All multi-outlet devices (eg - power strips) must have circuit protection. All exposed non-current carrying metal parts of fixed equipment, which are liable to be energized, shall be grounded.
7. Exhibitors' equipment will be modified to conform to PES receptacles. If an outage is the result of an exhibitors' equipment, then a labor charge may be assessed. Labor and materials to install or change a cord cap or fix an outage will be billed on a time and material basis.
8. Exhibitors with hard wall displays must arrange for power to be installed inside the booth or provide access.
9. Power sharing is not permitted between exhibitors.

As an exhibitor, should you choose to provide equipment with electrical connectors to plug directly into PACK EXPO Services electrical equipment, the following list provided will ensure the proper connection:

- 500 Watts to 2000 Watts - Standard U-Ground Amp Cord Cap
- 20/30 Amp 120 / 208 / 480 5 Wire - Hubbell Male - HBL 2511 / L2120P
- 60 Amp 208v & 480v Daniel Woodhead 5 Wire - Male Y560P (Pin & Sleeve)
- 100 Amp 208v & 480v Mini-Cam - Male Leviton 15SDM - Female 15SDF
- 200 / 400 Amp 208v & 480v Large-Cam - Male Hubbell HBL 400PT EKE - Female Hubbell HBL 400CT

Please refer to the [Electrical FAQ's](#) for additional information.

To assist in estimating, we recommend that you refer to the name plate or stamp usually located on the back or bottom of any electrical apparatus and order the corresponding outlet for each piece of equipment to avoid tripping/power outages during the event.

Please note that there is a minimum of 500 watts per outlet. A 500 watt (5 amp) outlet cannot be split. A 1000 watt (10 amp) outlet can only be split one time. A 2000 watt (20 amp) outlet can only be split three times.

The formula for wattage is voltage x amperage (120 volt x 1 amp = 120 watts)

Example: 5 - 100 watt light bulbs = (5 x 100 = 500 watts)

The following wattages are approximate and are provided to help you estimate your power usage.

Plumbing Floor Plan Template

Discount Deadline:

For all island booths, all plumbing utilities, excluding drain outlets, originate from overhead and will require a drop location. The floor plan MUST specify which outlets are overhead and which are floor outlets. It should also indicate if the floor outlets are to be run under the carpet or above the carpet. For all inline and peninsula booths, the utilities will originate from the floor at the back of the booth unless otherwise specified.

1. **Location, Type and Size of the primary connection**—Plumbing needs to be distributed from one location. It is recommended that this location be placed in a closet, under a table/desk or in another location that keeps it out of sight. Please provide specific dimensions. **Please identify overhead or floor drops as well as CFM requirements per drop required.**
2. **Location, Type and Size of all secondary connections**—Provide specific dimensions. *Please do not simply place an X where a connection is required.*
3. **Booth orientation**—Please provide surrounding aisle and/or booth numbers, particularly for Island booths. Try to orient your booth to the overall floor plan so that the diagram does not have to be rotated.

TERMS AND CONDITIONS OF SERVICE

1. Service and Installation Cox Communications Las Vegas, Inc. d/b/a Cox Business ("Cox"), shall provide Customer with certain services ("Services") and equipment ("Equipment") as described on the first page for the use of Customer and Customer's agents, independent contractors and guests attending or participating in an event hosted by Customer ("Customer's Guest"). Customer understands that Cox is the exclusive provider of all Voice, Data and Video services at the Las Vegas Convention Center and Cashman Center (collectively, the "Facility"). Furthermore, Cox is the exclusive provider at the Facility of all floor work associated with the extension of telecommunications and networking services, including, without limitation, coax, fiber or any cabling that transmits voice, data or video. Customer shall be responsible for the acts of Customer's Guests in connection with the Services as if such acts were performed by Customer. Except to the extent caused by Cox, a Cox agent or subcontractor, Customer shall be responsible for damage to any Equipment provided hereunder. Neither Customer nor any Customer Guest may use the Services in any manner that interferes with or impairs any Cox network, whether wired or wireless, Equipment or facilities. The Equipment may be used only for the purpose of receiving the Services. For Cox Internet services, bandwidth speed options may vary. Customer acknowledges and agrees that Customer and Customer's Guests may not always receive or obtain optimal bandwidth speeds and Cox network management needs may require Cox to modify upstream and downstream speeds.

2. Service Date and Term This Agreement shall be effective upon execution by the parties. Services shall be provided beginning on the Event Start Date and ending on the Event End Date, as described on the first page of this Agreement. Cox shall use reasonable efforts to make the Services available by the Event Start Date; provided, however, that Cox shall not be liable for any damages whatsoever resulting from delays in meeting any service dates due to delays beyond its reasonable control.

3. Customer Responsibilities Customer shall ensure that Customer and Customer's Guests use the Services in compliance with all applicable laws and ordinances, as well as applicable leases and other contractual agreements between Customer and third parties. If Customer is purchasing access codes enabling Customer or Customer's Guests to access the Internet, such individuals will be required to agree to the terms of a Cox end user license agreement before accessing the Internet. If Customer is purchasing bandwidth and itself controlling access to the Internet, Customer agrees to require all individuals accessing the Internet to agree to the terms of an end user license agreement reasonably acceptable to Cox. Customer is responsible for ensuring that all Customer and Customer Guest equipment is compatible for the Services selected and with the Cox network.

4. Equipment Unless otherwise provided herein, Customer agrees that Cox shall retain all rights, title and interest to facilities and Equipment installed by Cox hereunder and that Customer shall not create or permit to be created any liens or encumbrances on such Equipment. Cox shall install Equipment necessary to furnish the Services to Customer. Customer shall not modify or relocate Equipment installed by Cox without the prior written consent of Cox. Customer shall not permit tampering, altering or repair of the Equipment by any person other than Cox's authorized personnel. For Cox-owned Equipment, Customer shall, at the expiration or termination of this Agreement, return the Equipment in good condition, ordinary wear and tear resulting from proper use excepted. In the event the Equipment is not returned to Cox in good condition, Customer shall be responsible for the value of such Equipment as provided on the first page of this Agreement, or if no such value is provided, for the replacement cost of such Equipment. Cox shall repair any Equipment owned by Cox at no charge to Customer provided that damage is not due to the negligence or intentional misconduct of Customer. If additional equipment not listed on the first page of this Agreement, including but not limited to, televisions, monitors, computers, circuits, software or other devices, are required by Customer to use the Services, Customer shall be responsible for such equipment.

5. Resale of Service Neither Customer nor any Customer Guest may resell any portion of the Services to any other party.

6. Default If Customer or any Customer Guest fails to comply with any material provision of this Agreement, including, but not limited to failure to make payment as specified, then Cox, at its sole option, may elect to pursue one or more of the following courses of action upon proper notice to Customer as required by applicable law: (i) terminate service whereupon all sums then due and payable shall become immediately due and payable, (ii) suspend all or any part of Services, and/or (iii) pursue any other remedies, including reasonable attorneys' fees, as may be provided at law or in equity, including the applicable termination liabilities.

7. Termination Cox reserves the right to require Customer to pay an early termination fee equal to 10% of the Cox services ordered, if Customer cancels an order after the order is placed, but before the installation date. No refunds will be provided to orders which are canceled after they have been installed. Wireless devices not authorized by Cox are prohibited. Use of any device that interferes with Cox's network is prohibited. If there is signal interference, Cox may terminate this Agreement if Cox cannot resolve the interference by using commercially reasonable efforts. If Cox loses its right to sell Services at the Facility, Cox may assign this Agreement to a third party or terminate this Agreement by providing written notice to Customer and by refunding all prepaid amounts to Customer.

8. LIMITATION OF LIABILITY COX SHALL NOT BE LIABLE FOR DAMAGES FOR FAILURE TO FURNISH OR INTERRUPTION OF ANY SERVICES, NOR SHALL COX BE RESPONSIBLE FOR FAILURE OR ERRORS IN SIGNAL TRANSMISSION, LOST DATA, FILES OR SOFTWARE DAMAGE REGARDLESS OF THE CAUSE. COX SHALL NOT BE LIABLE FOR DAMAGE TO PROPERTY OR FOR INJURY TO ANY PERSON ARISING FROM THE INSTALLATION OR REMOVAL OF EQUIPMENT UNLESS CAUSED BY THE NEGLIGENCE OF COX. UNDER NO CIRCUMSTANCES WILL COX BE LIABLE FOR ANY INDIRECT, INCIDENTAL, PUNITIVE, SPECIAL OR CONSEQUENTIAL DAMAGES INCLUDING LOST PROFITS ARISING FROM THIS AGREEMENT. COX'S MAXIMUM LIABILITY TO CUSTOMER ARISING UNDER THIS AGREEMENT SHALL BE THE LESSER OF \$5,000.00 OR THE AMOUNT ACTUALLY PAID BY CUSTOMER FOR SERVICES HEREUNDER.

9. Assignment Customer may not assign, in whole or in part, this Agreement without the prior written consent of Cox, which consent may be withheld in Cox's discretion. Cox may assign this Agreement and Service may be provided by one or more legally authorized Cox affiliates.

10. WARRANTIES EXCEPT AS PROVIDED HEREIN, THERE ARE NO AGREEMENTS, WARRANTIES OR REPRESENTATIONS, EXPRESS OR IMPLIED, EITHER IN FACT OR BY OPERATION OF LAW, STATUTORY OR OTHERWISE, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, RELATING TO THE SERVICES. SERVICES PROVIDED ARE A BEST EFFORTS SERVICE AND COX DOES NOT WARRANT THAT THE SERVICES, EQUIPMENT OR SOFTWARE SHALL BE ERROR-FREE OR WITHOUT INTERRUPTION. COX MAKES NO WARRANTY AS TO TRANSMISSION OR UPSTREAM OR DOWNSTREAM SPEEDS OF THE NETWORK.

11. INDEMNITY Customer shall indemnify and hold Cox and its respective affiliates, subcontractors, employees and agents harmless (including payment of reasonable attorney's fees) from and against any claims, actions or demands relating to or arising out of Customer's or Customer's Guests use of the Service including without limitation (i) any content or software displayed, distributed or otherwise disseminated by Customer, its employees, or Customer's Guests or (ii) any malicious act or act in violation of any laws committed by Customer, its employees or Customer's Guests.

12. Viruses, Content, Customer Information Software or content obtained from the use of Service may contain viruses or other harmful features and Customer is solely responsible for protecting Customer and Customer's guests' networks, equipment and software through the use of firewalls, anti-virus, and other security devices. Through the use of the Service, Customer may obtain or discover content that is offensive or illegal and Customer assumes the risk and is solely responsible for its access to such content. Cox may disclose Customer information to law enforcement or to any Cox affiliate. Cox may delete any Internet traffic or e-mail that contains a virus. If Customer operates a wireless local access network in connection with the Services, Customer is solely responsible for the security of its network.

13. Public Performance If Customer engages in a public performance of any copyrighted material through use of the Services provided under this Agreement, the Customer, and not Cox, shall be responsible for obtaining any public performing licenses. Any Video Service that Cox provides under this Agreement does not include a public performance license.

14. Regulatory Authority-Force Majeure This Agreement and the obligations of the parties shall be subject to modification to comply with all applicable laws, regulations, court rulings, and administrative orders, as amended. In no event shall either party have any claim against the other for failure of performance if such failure is caused by acts of God, natural disasters including fire, flood, or winds, civil or military action, including riots, civil insurrections or acts of terrorists or the taking of property by condemnation.

15. Miscellaneous This Agreement constitutes the entire agreement between Cox and Customer for the Services and equipment provided herein. The invalidity or unenforceability of any term or condition of this Agreement shall not affect the validity or enforceability of any other provision. Except as provided herein, this Agreement may be modified, waived or amended only by a written amendment signed by both parties. The rights and obligations of the parties under this Agreement shall be governed by the laws of the State of Nevada. The failure by either party to exercise one or more rights provided in this Agreement shall not be deemed a waiver of the right to exercise such right in the future. Notices required by this Agreement shall be in writing and shall be delivered either by personal delivery or by mail. If delivered by mail, notices shall be sent by any express mail service; or by certified or registered mail, return receipt requested; with all postage and charges prepaid. All notices and other written communications under this Agreement shall be addressed to the parties at the addresses on the first page of this Agreement, or as specified by subsequent written notice delivered by the party whose address has changed. Customer understands that Cox is the exclusive provider of all Voice, Data and Video services at the Las Vegas Convention Center and Cashman Center (collectively, the "Facility"). Furthermore, Cox is the exclusive provider at the Facility of all floor work associated with the extension of telecommunications and networking services, including, without limitation, coax, fiber or any cabling that transmits voice, data or video. Customer shall be responsible for the acts of Customer's Guests in connection with the Services as if such acts were performed by Customer. Except to the extent caused by Cox, a Cox agent or subcontractor, Customer shall be responsible for damage to any Equipment provided hereunder. Neither Customer nor any Customer Guest may use the Services in any manner that interferes with or impairs any Cox network, whether wired or wireless, Equipment or facilities. The Equipment may be used only for the purpose of receiving the Services. For Cox Internet services, bandwidth speed options may vary. Customer acknowledges and agrees that Customer and Customer's Guests may not always receive or obtain optimal bandwidth speeds and Cox network management needs may require Cox to modify upstream and downstream speeds.

2. Service Date and Term This Agreement shall be effective upon execution by the parties. Services shall be provided beginning on the Event Start Date and ending on the Event End Date, as described on the first page of this Agreement. Cox shall use reasonable efforts to make the Services available by the Event Start Date; provided, however, that Cox shall not be liable for any damages whatsoever resulting from delays in meeting any service dates due to delays beyond its reasonable control.

3. Customer Responsibilities Customer shall ensure that Customer and Customer's Guests use the Services in compliance with all applicable laws and ordinances, as well as applicable leases and other contractual agreements between Customer and third parties. If Customer is purchasing access codes enabling Customer or Customer's Guests to access the Internet, such individuals will be required to agree to the terms of a Cox end user license agreement before accessing the Internet. If Customer is purchasing bandwidth and itself controlling access to the Internet, Customer agrees to require all individuals accessing the Internet to agree to the terms of an end user license agreement reasonably acceptable to Cox. Customer is responsible for ensuring that all Customer and Customer Guest equipment is compatible for the Services selected and with the Cox network.

4. Equipment Unless otherwise provided herein, Customer agrees that Cox shall retain all rights, title and interest to facilities and Equipment installed by Cox hereunder and that Customer shall not create or permit to be created any liens or encumbrances on such Equipment. 5. Resale of Service Neither Customer nor any Customer Guest may resell any portion of the Services to any other party.

No refunds will be provided to orders which are canceled after they have been installed. Wireless devices not authorized by Cox are prohibited. Use of any device that interferes with Cox's network is prohibited. If there is signal interference, Cox may terminate this Agreement if Cox cannot resolve the interference by using commercially reasonable efforts.
