

PACK EXPO East
 March 18-20, 2024
 Pennsylvania Convention Center
 Philadelphia, PA

Plumbing Floor Plan Template

**Discount Deadline:
 February 12, 2024**

- For all island booths, all plumbing utilities, excluding drain outlets, originate from overhead and will require a drop location. The floor plan MUST specify which outlets are overhead and which are floor outlets. It should also indicate if the floor outlets are to be run under the carpet or above the carpet. For all inline and peninsula booths, the utilities will originate from the floor at the back of the booth unless otherwise specified. To receive advance rate, all orders, payment and accurate floor-plan must be submitted by **February 12, 2024**.

- Location, Type and Size of the primary connection**—Plumbing needs to be distributed from one location. It is recommended that this location be placed in a closet, under a table/desk or in another location that keeps it out of sight. Please provide specific dimensions. **Please identify overhead or floor drops as well as CFM requirements per drop required.**
- Location, Type and Size of all secondary connections**—Provide specific dimensions. *Please do not simply place an X where a connection is required.*
- Booth orientation**—Please provide surrounding aisle and/or booth numbers, particularly for Island booths. Try to orient your booth to the overall floor plan so that the diagram does not have to be rotated.
